

LETTER OF RECOMMENDATION

I am pleased to present this Letter of Recommendation for Tupã Levi Pelizer Alves, my son and long-time partner in socio-environmental and climate activism since childhood.

He joined me in founding the first Earth Guardians Brazil Crew in 2014, when he was only 8 years old. Since then, he has taken a leading role in numerous local and global projects and campaigns, using innovative approaches that engage individuals and groups across different age ranges.

Currently, at 20 years old, Tupã serves as the Regional Director for South America at Earth Guardians Global, coordinating team leaders across the continent.

Over the years and up to the present, he has worked full-time on grassroots projects in his community of Águas da Prata. He has helped dozens of young people participate more actively in community life and the global stage through writing and managing artistic and socio-environmental initiatives, including planting, reforestation, event and artistic productions, educational campaigns, workshops, and more.

In recent years, I have served as an advisor to Earth Guardians Brazil, mainly supporting project execution and artistic activities. Based on this experience, I can confidently say Tupã has done remarkable work, showing maturity, perseverance, and strong teamwork skills. He leads effortlessly through example and a spirit of collaboration.

Therefore, I confidently recommend Tupã and his project, fully believing this fellowship can strengthen the incredible work this dedicated young activist has pursued for over a decade.

May all beings benefit.

Águas da Prata, SP, August 31, 2025.
